WHEELING, JANUARY 24, 1893.

REPUBLICAN CITY TICKET.

FOR MAYOR,
R. F. CALDWELL.
CITY CLERK,
CHARLES F. SCHULTZ.
CITY SHERIFF,
THOS. D. BENNETT.
WARD MASTER,
JOHN R. MARSH.

Thursday's Election.
The Register, rising to its loftiest height and taking for granted that no Republican will read what it says, gives this advice to its party friends:

"Vote the straight Democratic ticket at Thursday's city election and we guarantee you will make no mistake."

Democratic nominees are whispering sweetly into the ears of Republicans that it is not a party, but a personal matter, and for friendship's sake they would like the compliment of a vote.

Better advice than the Register's is to vote for the best man in sight for each office. If the voter desires to "make no mistake" this is the way to do it.

The Register's idea is that Democrats shall vote straight while Republicans permit their votes to be influenced by personal considerations.

If Mr. William L. Wilson is to be the all-powerful one with the next administration what was the use of the boys combining to leave Mr. Wilson out of the senate?

Prepare for Disaster.

One who presumes to know gives to those about to travel advice which may be worth heeding. Wear your best underclothes, for, in case of a railroad wreck, the better appearance you make in your underwear the better your chance of being fished out of the debris and well cared for. Your ability to pay for services rendered will be judged by your apparel, and since top clothes are very much alike in these days, the underwear will suggest the bank account.

This idea has not occurred to many people, but there is no patent on it and when you are about to set out on a journey it may be well enough to make all the necessary provisions.

If we could tell in the morning what kind of weather we are going to have by sundown, it would be easy enough to decide whether to wear an ulster or a linen duster.

A Great Preacher Dead.

Without warning comes the news of the death of Bishop Phillips Brooks, of Boston. Scarcely a year has passed since the elevation to the bishopric of this admirable man and brilliant preacher. Very much was expected of him in his administration of the affairs of his diocese, and he was justifying expectation.

He was an ornament to the Protestant Episcopal church and to his country. He was an orator of rare power, a man of high cultivation, of broad sympathies, of winning manner and one of the features of Boston. He will be sadly missed from the field in which he had labored so industriously and so effectively.

CHAMPION CORBETT insists that he has the right to act if he wants to. You have the right, James, and if you had the talent you would be right.

Compensation for Grand Jurors.

The judiciary committee of the house of delegates thinks it right and fair that a man called to serve on the grand jury shall give his time without pay and do his coming and going at his own expense.

There are men to whom this is a great hardship. In some counties long distances must be travelled to the county seat, and the poor man must walk or get in trouble for not responding. To such a man the loss of time may be a serious matter.

It is unfair to any citizen to compel him to serve the public without compensation. No more righteous measure will come before the legislature than this against which the house judiciary committee has reported adversely.

Turn young khedive might repeat for his daily consolation "Dying, Egypt, dying," if he happens to know that poem.

The practiced hand of France is believed to be pulling wires in Egypt with intent to deceive John Bull and to get up a little row that may divert attention from the Panama scandal. The gay French do not spend all their time dancing.

Probably no new-comer to the United States ever achieved fame so rapidly as Archbishop Sallati has. Yet there are thought to be some of those to whom

he has been sent who will not weep many bitter tears when he goes back to his native sunny Italy. The rest of the country is serene and observing with quiet interest the course of events.

When the street cars are not in it to any appreciable extent the noble art of walking comes to the front again, and it is perceived that legs are a good thing to fall back on.

The Man With the Shovel.

Yesterday saw an earnest of good faith in the matter of redeeming the streets from the oblivion of snow and dirt in which they are buried.

It cannot be called a radical reform movement. There is as yet nothing in it to arouse the bitter hostility of those who like the streets as they are, nor to bring the hectic flush of an unexpected triumph to the cheek of anybody who looked on the unsightly and ill-omened accumulation and wished it with the lamented McGinty.

If the snow had been carted away while it was snow there would be less occasion now to try to draw it off as slush. If the railway company had not doled the snow liberally with salt there would now be a more presentable and comfortable condition of affairs.

If the artists who have been commissioned to do the work were more in love with it, and if there were more of them, the prospect of speedy delivery from the thrall of dirty slush would be brighter.

Between the deliberate, contemplative man with the shovel and the glorious sun great wonders may be worked on the streets of Wheeling; but even this happy conjunction of forces will require time.

There might be a compromise with the Tammany tiger, promising that when the first lot of cholera comes along he shall have all he can hold of it. With this understanding he might allow the country to have a national quarantine.

Jeffersonian Simplicity.

Here we have another specimen of Jeffersonian simplicity. Mr. Dandridge, of the beautiful and fertile county of Jefferson, was "all torn up" because the house of delegates is wasting a great deal of the people's money for want of a journal page.

Judge Maxwell agreed that a journal page would be a good addition to the furnishing of the house, always provided the page was a tried and true Republican.

With a unanimity as surprising as it was gratifying the house agreed to ornament the Jeffersonian amendment. Then the Democrats, headed by the gallant Dandridge, assaulted the little journal page in force and knocked him out in one short round.

What does all this mean? Is there no crying need of a journal page, after all?

It is reassuring to learn that 8,000 British women have already joined the anti-crinoline league; and there is good prospect that the swelling tide will roll on. The outlook would be still better if the prince and princess of Wales had not declined to identify themselves with the movement. Perhaps the prince thinks he would look well in hoop.

A CHICAGO offer of \$2,000 has been made for the gallows on which the four colored men were recently hanged at Chestertown, Maryland. The bodies could be stolen for less than that and would make a much more catching side-show exhibit. Is Chicago getting slow?

BUSINESS men recognize the need of a national bankrupt law. The bill now before Congress, known as the Torrey bill, is a carefully matured measure endorsed by the commercial bodies of the country. Congress should find time to pass it.

THE JOKER'S DELIGHT.

TO AVOID RISK.

Clara—Did you bring it?
Mr. Slimpurs—Yes, my love, but I heard a terrible story at the jeweler's, my angel. A wild-eyed, dark-skinned man is roaming through the country hunting for a sacred jewel which was stolen from an Asiatic tribe by an American tourist, and the half-crazed fanatic will wage through blood to get it.

Clara—Horror!
Mr. Slimpurs—Yes, my sweet, and so, to avoid all risk, I brought you a plain gold one.—New York Weekly.

The Impossible.

Chicago News Record.
Wait, oh, wait till coal is cheap;
Wait till love is true;
Till promises are made to keep
And notes are paid when due;
Wait till the sun grows lean and cold;
Wait till your ship comes in;
Wait till all sinners make good old
And virtue conquers sin;
Wait till life is a happy dream

SILVER COINAGE.

In the Senate.

Philadelphia Press (Rep.)

A minority of the Republicans, represented by such men as Stewart, Teller, and probably Cameron, are opposed to interfering with silver purchases; but three-fourths of the Republicans favor suspension, and if a dozen Democrats will vote with them the measure can be carried, unless, indeed, the senate regards its ancient rules more than it does the public interests and allows the bill to be talked to death.

Sentiment of the Empire State.

Albany Argus (Dem.)

The assembly yesterday unanimously passed a resolution declaring that the best interests of the state require the early repeal or suspension of the act authorizing the monthly purchase of silver bullion by the United States. The assembly could not have passed a resolution upon any other subject upon which there is such complete accord among the people of this state.

Quit This Foolishness.

Chattanooga Times (Dem.)

We are going on with this policy, piling up silver as one might pile up pig iron on speculation, straining the resources of the government to hold the stuff up to gold par, and calling it "money," though it would not pass anywhere out of the United States at but little more than half its alleged value. We will have to quit this foolishness or pay for it in round millions.

Driving Out Gold.

New York Press (Rep.)

Another \$4,000,000 of good, yellow American gold has been packed off to Europe, whereat the free silver enthusiasts will probably rejoice boisterously. It appears to be their idea to drive all the gold out of the country, thus compelling the government to use silver exclusively for coinage or do without.

More Reason for an Extra Session.

New York World (Dem.)

It looks as if the Republican silver difficulty would be left to a Democratic Congress and a Democratic President for settlement. If this be the case, there will exist another strong reason for an early extra session.

A BEAUTIFUL INDIAN GIRL.

Who in Exile is Visited by Thousands—Her Strange Gifts.

Hermosillo, Mex., Special to New Orleans Times-Democrat.

Toreas Urrea, the living patron saint of the Yakul Indians, who was banished from her home in this state several months ago by order of the government authorities, the charge against her being that she was working up a spirit of warfare among the Indians, is making her home at Nogales, Arizona, just across the line. She continues to perform many miraculous cures by simply laying on her hand, and thousands of the ignorant Mexicans and Indians have visited her since she was exiled.

The people of Nogales have taken a kindly interest in the remarkable girl, whose powers of healing the sick and afflicted are mysterious. She is a beautiful girl, seventeen years old.

Shameful Butchery of Rabbits.

Kingswood Argus.

Thos. Kirk, of Irondale furnace, has beaten the record in killing rabbits, having up to Christmas killed nearly three hundred, and when starting out on the morning of the 26th declared that before New Year's day the number should reach four hundred. His wonderful luck comes from the fact that he has secured a ferret which will crawl into a hole, rout the rabbit which is then killed by Mr. Kirk. His less fortunate neighbors are envious and are endeavoring to get out an injunction to stop the work of the ferret.

Cheer Ice, Sure.

Philippi Republican.

There should be no possible danger of an ice famine in Philippi next summer. There has been better opportunities this winter for laying in a good supply than for a long time, and what ice has been put up has been cared for at a very small cost. One party put up \$9,000 pounds at a net cost of only \$16. Ice at that price should be very plentiful next summer.

Wanted to Repeat it.

Harper's for February.

A certain small boy had told a lie. Very sadly his mother had reproved him for it, and to help him to resist temptation, she said:

"Now, my boy, if you ever feel like telling a lie again, come to mama, and she will help you fight against it."

The lad went off with a sober face. Only a few moments elapsed, however, before he appeared again, and with an eager smile said:

"Mamma, I want to tell a lie."

"Well, my dear, tell me what you want to say," said the mother.

"I want to tell that same old lie over again," observed the boy.

A GLORIOUS TRUTH.

And Women Will Profoundly Appreciate It.

A Vista of Hope and Happiness Opened Up for Women.

Facts in Regard to It Given by Some Well Known People.

All women will be deeply interested in the following true story told by Mrs. Amos V. Dell, who resides at 235 Hancock ave., Jersey City Heights, N. J.

"I suffered from complete prostration and exhaustion of the nerves and physical system," she said. "I had womb disease terribly, and leucorrhoea so bad that I could hardly walk. I was tired and weak all the time, and hardly cared whether I lived or died. I took Dr. Greene's Nervura blood and nerve remedy, and now feel as if I had a new lease of life."

"I no longer have that tired feeling, the leucorrhoea has stopped, and I do my work without getting tired. This wonderful medicine has done me more good than anything else I have ever taken. Why, I had only taken one dose on going to bed, and in the morning I woke up feeling like another woman; it seemed strange for me to know what it was to get up without feeling tired. I feel that I cannot praise Dr. Greene's Nervura blood and nerve remedy enough!"

Her story is more than equalled by that of Mrs. J. K. Swift, of 2789 Washington St., Boston, Mass. She says:

"Four years ago I was in a position of complete physical and nervous prostration; had but little appetite, with severe indigestion, stomach distended with gas, constipation, palpitation of the heart, sleeplessness, pain in the back of the neck and base of the brain, so nervous and despondent that life was a burden."

MRS. AMOS V. DELL.

"As a result of this condition, other weaknesses peculiar to my sex, fell upon me, until I was utterly wretched."

"After much medical treatment and constant failure, I was induced to try Dr. Greene's Nervura blood and nerve remedy. It was in a faint, hearted way and with little hope, but I soon began to sleep better, my digestion improved, the pain in the head became less severe and I gradually gained strength until I felt as if I had been extricated from a pit of abject darkness and despair and had emerged into the sunlight. Dr. Greene's Nervura blood and nerve remedy saved me!"

"Very many of my friends to whom I have recommended the remedy, can attest to similar results in their own cases. Dr. Greene's Nervura blood and nerve remedy is truly a wonderful medicine and might well be called the 'Woman's Friend.'"

"This great remedy is purely vegetable and harmless and doctors recommend it because they know it is such a wonderful curer of diseases and because it is the prescription and discovery of the noted physician, Dr. Greene, of 25 W. 14th Street, New York, the successful specialist in curing all forms of nervous and chronic diseases. The doctor can be consulted by all free of charge, personally or by letter. No suffering woman should be without this sure remedy."
